CONDITION OF THE MARKETS

Friday's Conditions Reversed, Accompanied by Many Changes in Wheat.

Corn Shows Considerable Strength, with a Generally Bullish Feeling-Oats Higher-An Easier Feeling in Provisions.

MONEY, BONDS AND STOCKS,

Increased Animation in New York, Accompanied by Slightly Higher Prices. NEW YORK, July 7 .-- Money on call was not quoted. No loans were made to-day.

Prime mercantile paper, 319 26 per cent. Sterling exchange was dull but steady at \$4.86% for sixty-day bills, and \$4.8812 for demand.

The total sales of stocks to-day were 67,113 shares, including the following: Delaware, Lackswanns & Western, 3.880; Missouri Pacific, 3,280; Northwestern, 2,425; Northern Pacific, preferred, 2,925; Oregon Transcontinental, 1,850; Reading. 12,120; Richmond & West Point, 2,385; St. Paul, 8,520; Texas Pacific, 2,675; Union Pacific, 6,300; Western Union, 3,915.

The stock market to-day, while it displayed a greater degree of animation, especially in the first hour, than has been usual for the past week, was almost, if not quite, as barren of feature. The temper of the room was bullish, and there was some buying by commission-houses and the foreigners, but the demand for stocks was very limited, and only about equal to the supply, and toward the close the realizations on the advances of the week served to sag the list off slightly, and the day's operations did very little to raise prices to a higher level. The opening was firm to strong, though advances over last evening's closing figures were confined to the smallest fractions. Some further improvement was made throughout the list, but the best prices were held but a short time. The only feature was the advance in Wheeling & Lake Erie from 52% to 54, the fluctuations in the rest of the list being confined to less than 's per cent. generally. There was no change in the character of the market, which continued rather heavy up to the close, which was barely steady at insignificant changes from the opening figures. Most of the list are slightly higher this evening, and Puliman gained 1 per cent.
Railroad bonds were again in marked contrast to-000. The features were Texas Pacific firsts and seconds, which furnished \$150,000 and \$156,000, respectively, to the day's total, though their movements were made within a narrow range. The market was firm to strong throughout.

Government bonds were dull and steady. State bonds were dull and steady. Closing quota-

CHICAGO, July 7.—To-day's condition of wheat was the reverse of yesterday. Prices opened strong, and the first move was a decline of 1 cent. In selling for the reaction, the crowd evidently overdid the and the first move was a decline of 1 cent. In selling for the reaction, the crowd evidently overdid the thing, and there was an upturn in prices which regained most of the loss before noon. On a second bulge after 12 o'clock prices went several points above the closing quotations last night. The early selling to-day was a continuation of that late yesterday, when it was thought that the foreigners were working the market. Some regard the bulge of Thursday as too violent and the decline which followed a natural one. Cables were again quite favorable, while 66,000 bushels were exported be sides about half as much flour from Atlantic ports. The way in which July wheat is held caused it to sell at 7sc premium over August early to-day. August prices ranged from \$17sc down \$07sc, up to \$12sc, back to \$13sc, up to \$15sc, and on the later bulge advanced nearly 1c additional, to \$24sc, returning to \$2 cents as soon as the little flurry was over. One cause for the strenth was Bradstreet's estimate on the visible and invisible supply of wheat, which was of a bullish character. Wheat closed for the week strong and at outside prices for the session: July, \$3c; August, \$24c; September, \$17sc. Corn was quite strong during the greater part of the session. There was a little dip in prices from the opening figures, when wheat sold off 1c, but the feeling was bullish on the conditions, and the closing prices were nearly 1c higher than yesterday. The elements of strength were the decrease of nearly 1,500,000 bu in the local stock for the week, the light receipts to-day and the light estimate for Monday, the good cash demand, the light offerings and the persistent buying by a large local operator. July ranged at 487sc 504sc, closing at 504sc. August sold at 495sc, down to 493sc 494sc, up to 504sc, closing at 504sc.

Oats attracted considerable attention because of the little squeeze in July, very similar to the one last month. The "shorts" were obliged to buy, and prices little squeeze in July, very similar to the one last month. The "shorts" were obliged to buy, and prices for the month went from 317sc to 324s. closing at 324sc. Other futures were little changed. Provisions were traded in to a moderate extent, and an easier feeling prevailed, closing sales being at a de-cline of 5 27 gc on pork, .05c on short ribs, but steady on lard. Offerings exceed the demand, even "shorts"

INDIANAPOLIS MARKETS. A Fair Week's Trade for Midsummer with Prospects Brightening.

INDIANAPOLIS, July 7. The trade of the week closing to-day, all things considered, has been quite satisfactory in volume, and the grand prospects for crops is giving a better tone to trade generally. The wheat crop is better than was anticipated; the same is true of the hay crop. The oats crop is to be a large one, and the growing corn crop was never more premising in early July. In prices there have been but few fluctuations the last week. Sugars advanced an even cent per pound but have halted there. Coffees went off 19c per pound and have now taken on a steadier tone, and in all lines of groceries a steady tone in prices is the prevailing feature Dry goods men are having rather quiet times. This they expect in early July. Hardware men are busy and making fair margins on their sales. Provisions are firmer than in the early part of the week, and there has been some increase on sales. Holders of hog products are rather bullish in their ideas and believe that better prices are yet to be realized, although they now could unload most of their holdings at a fair advance on their cost. The growth of the jobbing trade with Indianapolis packers is one of the best features of the situation with them. There is a little more activity in the hide market, but prices show no signs of improving as yet. The wool market is in an uncertian state, awaiting the action of Congress. Holders here are not disposed to sell at present prices, feeling that in time the market will adjust itself to a proper basis. The produce markets are very activ. and have been for some days. The commission men admit that they are experiencing the most profitable and satisfactory business in some years. Apples. prices drooping in their tendency. On larger receipts the market on young chickens is weakening somewhat. Eggs and choice butter in good demand at firm prices. Small fruits are coming in freely. Today sales were large and prices highly satisfactory. Strawberries are off the market. There is a brisk demand for lemons and oranges, and they rule firm at quotations which it will be noticed are high for this season of the year; especially is this true as regards lemons. Bananas are really a drug on the market. Druggists report trade good. Seed men say that business is rather quiet although they have had an an exceptionally good year taken as a whole.

There was a good attendance on 'Change to-day for Saturday, and the bidding was spirited; prices though firm ruled a shade lower than on Friday. Track bids to-day ruled as follows:

Judge Gresham's European Trip.

New York Special. Judge Walter Q. Gresham, of Chicago, who was one of the candidates for the presidential nomination before the Republican national con-

vention, sailed for Europe this afternoon on the ateamship Werra, of the North German Lloyd line. He was accompanied by a number of friends, including Judge J. C. Knickerbocker, J. W. Doane, A. A. Sprague and Mr. Barker, all of Chicago. They will stay abroad about sixty days. It is their intention to go direct to London, and thence through the continent or up through Scotland, as they may decide when they arrive on the other side of the water. Judge Gresham said to-day that the trip had been hastily arranged, and that he was taking it more for the sea voyage than for the trip on the other side. He was in good health and spirits, but declined to discuss politics in any of its phases, personally or otherwise, because of his udicial position. Among the gentlemen who were in New York to see him off was C. W. Fairbanks, of Indianapolis, who was one of the principal managers of the Gresham forces at
